

A 14x14 grid representing a 2D spatial distribution. The grid is divided into three regions: a blue region in the top-left (rows 1-9, columns 1-5), an orange region in the center-right (rows 5-14, columns 6-14), and a small blue region in the bottom-right (rows 13-14, columns 13-14). The grid is labeled with indices 1 to 14 on both the x and y axes.
