

A 14x14 grid representing a 2D spatial distribution. The grid is divided into three regions: a blue region on the left, an orange region on the right, and a white region at the top. The blue region is a large, irregular shape covering the left side. The orange region is a large, irregular shape covering the right side. The white region is a small, irregular shape at the top. The grid is labeled with numbers 1 to 14 on both the x and y axes.
